Avira

Avira Antivirus Pro – Business Edition

The smart,
total security solution
for businesses

Maximum protection against malware – top performance

Real-time threat prevention
Signature-based detection, heuristics analysis, and cloud-based scanning give you complete protection against malware.

Advanced network drive protection
Antivirus Pro prevents malware from being stored or spread by your internal network or cloud-based storage solution.

Advanced Web Protection
Phishing scams, infected websites, drive-by downloads… Antivirus Pro ensures employees never land on harmful websites.

Email Protection
Antivirus Pro scans locally installed email clients, so employees neither receive nor spread malware to colleagues and customers.

Anti-ransomware
Every month, Avira blocks over a million ransomware attacks, preventing ransom demands of over 600 euros per attack. Our unique security technology stops ransomware before it can unleash its damage.

Resource-light
Even when this powerful antivirus technology is active, your servers will keep performing at their best when the processing load is high.

Centralized Management
Avira business products can be managed using our strategic partners' management consoles.
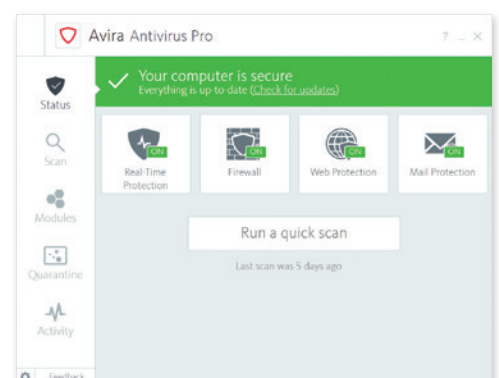

Zero maintenance costs
No maintenance or other hidden costs. Avira doesn't interfere with server uptime or availability. Outstanding customer support is available to you whenever you need it, and included in the service.

The success of your business relies heavily on how secure your PCs, laptops, and tablets are and how systematically you protect your customers' data. With **AntivirusPro – Business Edition** you have the latest generation of Avira's award-winning security technology at your side. It's reliable, proven millions of times in IT practice, and a prime example of German engineering.

No matter what files your employees open or how they use the Internet, with Avira Antivirus Pro cyber threats are the last thing you'll need to think about.
