

Microsoft Hellas leverages the Best of Greek Business practices,
and complies with Greek eBook requirements with Data Communication

Microsoft Hellas, with 28-year presence in the Greek market, with products and services set to have a key impact on the digital modernization of the Greek economy, trusted **Data Communication's Dynamics 365 Business Central - InnovEra on Azure**, to upgrade the existing Microsoft Dynamics NAV installation, and comply with Greek eBook requirements. The project aimed at fully optimizing the business processes, through the use of cutting-edge technology, and a full range of high-quality functions and services tailored to the needs of the Greek market.

Dynamics 365 Business Central - InnovEra on Azure, Greek localized version of Microsoft Dynamics 365 Business Central, is developed on and leverages the innovative features of a leading, all-in-one Business Management solution, while incorporating rich functionality and Best Business Practices necessary for Greek enterprises. Data Communication, a strategic partner of Microsoft since 2004, has incorporated in **InnovEra add-on** its 33-year expertise in delivering solutions tailored to Greek accounting and business practices, along with its extensive expertise in demanding Microsoft Dynamics implementations.

The implementation of Dynamics 365 Business Central - InnovEra on Azure at Microsoft Hellas was delivered with **DC MyData – NAV add-on**, a solution responding to the need of flexible compliance with the Greek eBook requirements. Embedded in ERP and compatible with all Dynamics NAV and Business Central releases, DC MyData –NAV add - on allows a quick to implement, easy to use and cost-effective data transmission from the ERP and my **MyDATA platform** (i.e. the digital platform of Public Revenues Authority).

After the delivery of Dynamics 365 Business Central - InnovEra on Azure integrated solution, Microsoft Hellas fully covers its adaption needs. In addition, the company can now: 1) leverage the advanced Artificial & Business Intelligence (AI & BI) capabilities of Business Central 2) benefit from optimal eBook management via a centralized, unified system 3) ensure timely and valid updates in an often-changing tax environment and 4) minimize total TCO by saving on infrastructure costs and reducing the hardware and maintenance costs of an in-house IT.

Ioannis Terzakis, Microsoft **Sr Finance Manager for Greece, Cyprus, Malta**, said about this endeavor:

"I would like to express my appreciation for the Data Communications' team. Through their innovative thinking, technology intensity and understanding of our needs, we concluded together to the exceptional execution of the project on time and with maximum impact".

Panagiotis Vassiliadis, President and CEO of Data Communication, said:

"We are honored by Microsoft Hellas choice of Dynamics 365 Business Central - InnovEra on Azure, and Data Communication, to upgrade and support their information system. This project represents the culmination of our 16-year successful collaboration with Microsoft".
